

Examples of suffering continued

The Lamb of God

He suffered so much more than was possible to suffer normally and yet made it thru it. He suffered the concentrated wrath of God for the whole world. Can you imagine the impact had he killed himself and not fulfilled his purpose?

He did not give up and that is why salvation is available to those who want it.

He was beaten so severely he was not recognizable. His friend betrayed him then he was crucified. Add to that his communication was severed from the Heavenly Father!

No faith in suicide

We can not have faith in suicide, as the only examples we have in the scripture were people out of God's will. Saul fell on his sword and other wicked kings ended their life in the same way. Elijah the great prophet despaired of his life and asked God to let him die but he did not take his own life.

Going back to the example of Job why not just end it all?

We are to know how to take the bad with the good in this life. Some people have better lives with less problems than others. Some have different types of problems.

We can not have faith in suicide. We do not have any example that God is pleased with that we know of. Do not play Russian roulette with your soul. Every life is valuable!

Lies about suicide

It only hurts me and my family will be better off. Wrong your family will not be better off and it hurts then as well as they have to deal with the unexpected death of a loved one.

No one loves me anyway I so I will end it all. This is not true as there are people who do not know you even that would love you if they knew about you. In fact we are sent to you to tell you that if you are reading information.

I will help my family by committing suicide they will be rich. Shame on you for thinking your life could be valued by wealth as the most perverted life and broken and useless is still worth Calvary.

I have a right to commit suicide if I want and no one will stop me. No that is not a right but a choice like murder is a choice a very bad choice but not a right.

Depression causes suicide. Not always does depression lead to suicide. Depression does not have to be a permanent state!

There are many other lies a mile long.

Get Help

The most effective is Prayer to the Maker of life and ask Him to give you a reason to live. You already have many but cannot see them right now. If you just need to talk resources are listed below.

Before you commit suicide:

Please read this!

This is designed to help answer the following questions

Why Suicide?

What happens if you commit suicide?

What alternatives are there to suicide?

People that went thru more pain than us and did not commit suicide. Why?

What are leading causes of the wanting to die?

Lies about suicide.

Get Help

Why Suicide

The hurt the hopelessness and despair you feel right now. Notice the way I used feel as how you feel does not always equal how you are. It seldom does in fact.

You feel like what is the use and can not find your purpose or even worse knew your purpose and failed to live it. Maybe you just went thru the gut wrenching of divorce. Perhaps you are depressed all the time. Sometimes life hurts and we may want to end it all.

The strange thing about wanting to commit suicide is or thinking about it is those feelings pass. It may take hours days or even months but when they do pass you want to live. I mean you really wonder how you could have thought of being that extreme.

Alternatives

Wait Time will help fix this problem. Just wait and you likely will feel like living again.

If you feel like committing suicide try to think of people who have went thru worse than you without committing suicide.

Call someone you trust and talk. Think of all the things you could have done had you not committed suicide. Think of the family you will leave behind. They will be crushed.

Think or reasons you have to be thankful and write then down.

If you are in a lot of pain think of being pain free and concentrate on that.

What happens when you commit suicide?

You are dead and that is final. A lot of decisions in life can be undone. You can decide to lose weight if you weigh too much. You can decide to call that friend you have not talked to in years The list of reversible life choices goes on. When you commit suicide you make a decision to end your ability to make decisions.

You are not in charge of any decisions after death that you are 100% sure of! You will regret your decision to end your life potential regardless of religious faith or lack there of.

Do you want take a chance that the Living God will condone suicide?

Whether you are ready or not death is permanent and you do not come back after you reach your final destination. For those that fear the Living God, suicide is opposite to fearing God.

If you have not been saved you are lost for sure then.

It is appointed to once die then the judgment. You hurry to judgment. How do you know that there are not worse things in death? In life only can you prepare for death not in death.

You will grieve the Lord if you commit suicide He went a to a very cruel death for you so you can have hope. Will you end it by committing suicide?

Many factors can aid in depression and sometimes depression can spur action and humble you. It can keep you from greater misery.. However when depression cripples the life out of you that is from opposite source the source of all evil. To beat this kind of depression is usually a waiting game but only if you tell a close friend or family member you are depressed like that. This depression is not good and must be dealt with by prayer and activity as well. This is the depression that most leads to suicidal thoughts .Sometimes this depression does not have a known source. A lot of time this depression comes with the feeling of hopelessness. Nothing in this life is hopeless. Hang in there.

Examples of suffering

Job

Let me paraphrase what he went thru. He was a very rich man who loves God and then he in the process of serving God, but he loses everything: his wealth his children in one week. Imagine the pain he went thru! Then to make matters worse, he lost his health and his friends kept telling him to repent of sins he did not commit.

He cursed the day of his birth. His wife encouraged him to Curse God and die which would have been suicide in his day. He would have been killed for doing that. Whew a way out you say. NO! He responded that she talked as a foolish woman. Remember he said that in a lot of pain and grief. He is no longer a rich man and his sons were killed and he is in a lot of pain sore from head to foot is a lot of pain. He says to her shall we not accept the bad with the good. Stop thinking you are worthless and understand this that suffering is part of this life and that we take the bad with the good.
